Auditorium Analysis

Are your auditoriums equipped with house-dimmers? If yes, how are they set up? (i.e. further explanation)

Are your auditorium walls draped? Insulated?

How are the auditorium walls constructed? (drywall, brick, etc.)

Last updated on October 9, 2012

How old are your screens?

What are the approximate gains (reflectivity) of your screens?

Are there speaker platforms behind your screens? If yes, how many?

Important Preliminaries

Have you filled out the digital cinema readiness forms from GDC?

Have you spoken with your film buyer about the transition to digital and booked hard drives for week of install?

Have you talked to Deluxe & Technicolor about receiving trail mix hard drives?

Last updated on October 9, 2012

Other Questions

Have you hired a certified electrician to work on installation day? Approximate work time is 2-3 hours of work per screen depending on site.

Is there access to a hardware store in your area?

Is there access to an electronics store in your area? (i.e. Radioshack)

Do you have ladders on site? If yes, how tall?

Does your shipper offer booth delivery?
